

August 2012 Overview  
Yosemite II CCC Backcountry Crew  
Supervisor: Mike Asprey

August, the fourth month of the season. The crew continues to be a great crew, working hard at getting stuff done and striving to be an outstanding community. We are also continuing to complete rock work on the Donohue Pass Trail.

We had a delegation of visitors from Yosemite's sister park in Chile, Torres del Paine, stop by for a night this last month. They are looking to set up a South American version of CCC trail crews. We also had guests from CCC Headquarters out of Sacramento. It was nice for the crew to meet some new people.

The crew spent a lot of time and energy designing and drawing up this summer's crew T-shirts. We held the first Hunger Games (no one went hungry or was injured) with Mathew Gaye being the survivor. For his efforts he did not have to help with camp chores this week.

The crew continues to explore Yosemite and Inyo on their weekends. When not putting in 10-mile days they are finding beautiful spots to relax and take in the natural beauty of their surroundings.

The crew is looking forward to finishing the summer strong and getting things done.
