

# CCC 510 Budget Estimate - Instructions

The Grant Budget Estimate Form - CCC Form 510 is a standardized form, used for all CCC grants. There may be categories listed that are not eligible for a particular grant. Consult the program-specific Guidelines for eligible costs.

Line items listed under budget categories are examples only - please add, remove, or edit lines based on the specific grant's budget. Please delete any unused examples.

Be specific when entering budget line items, including name/description, quantity, unit, and cost per unit.

For Corpsmember Hours, the hourly rate (cost per unit) must come from the approved Corpsmember Hourly Rate Justification Form.

Direct project costs and indirect costs that are already captured in the Corpsmember Hourly Rate cannot be included as separate line items in the budget.

Please contact the CCC's [Bonds & Grants Unit directly for a CCC Form 510 and Instructions](#).
